

## BENVOLO PROJECT SERVICE

Project Services – We find that sometimes clients just want us to do some ad-hoc work or help with a major project. Some clients also use this as a route to using our outsourced services.

Below are just some of the benefits of using Benvolo as your resourcing partner:

**PASSIVE CANDIDATE SEARCH:** Using our Project service can provide passive candidate email approach lists boosting your success rates dramatically with a 48 hour turnaround. We have the ability to compliment and enhance your existing hiring needs.

**MAPPING:** Ability to map entire industry sectors on your behalf giving you a country / global landscape of people within an industry sector. Normally we can generate between 30,000 and 60,000 new and fresh contacts per month and all will have email contact details.

**SCALABILITY:** This is also important to our clients. We have clients who just use one Research team and we have clients who use more than 10 researchers across industries so what we do is fully scalable.

**TIMEFRAMES:** Typically we can set up your project service within 2 to 5 days.

**COSTS:** This is dealt with on a case by case basis depending upon the assignment.

**ADAPTABILITY:** We understand that parameters change and clients needs adapt so we are here to help and we will work with you on any project to ensure a successful outcome.
